Abstract (en)
[origin: WO2020057918A1] The invention relates to the use of a user interface (4, 6, 12) of a passenger information system (9) and/or entertainment system, to a method for controlling a track guided vehicle (1), a passenger information system (9) and/or entertainment system and to a track guided vehicle (1). In order to simplify control of the track guided vehicle (1), the user interface (4, 6, 12) of the passenger information system (9) and/or entertainment system is used to control a function of the track guided vehicle (1).
