Abstract (en)
[origin: WO2020016079A1] The present invention relates to a stand-up packaging (1) for food products comprising at least one first pouch (21) and at least one second pouch (22) for carrying a food product, respectively, an outer packaging (3) having two cover elements (31,32) at least partially sandwiching the first pouch (21), and at least one further element (33) being at least partially sandwiched between the first pouch (21) and one of the cover elements (31). The further element (33) is penetrated by a through hole (36) and the one cover element (31) is glued (Gi) to the first pouch (21) via the through hole (36). The second pouch (22) is directly glued (G2) not via a through hole to at least one of the cover elements (31,32) or the further element (33).
