Abstract (en)
[origin: WO2020016287A1] The invention relates to a method for the recombinant production of cannabigerolic acid in a host organism using a modified prenyltransferase. The invention further relates to a modified prenyltransferase, a nucleic acid molecule that codes for such a modified prenyltransferase, and to a recombinant organism that comprises the modified prenyltransferase and/or the nucleic acid molecule.
