Abstract (en)
[origin: WO2021099219A1] The invention relates to a magazine for a firearm, comprising a magazine body (11) having at least one slit (120) in the side (112), a feeder (20) comprising a slide receptacle (21), and a loading aid. For the purpose of simple mounting and collapse, the loading aid comprises a first and second slide (30, 40) which are designed so as to be able to be coupled inside the slide receptacle (21) by means of a latch (36), and the feeder (20) comprising at least one hole (24), for uncoupling the latch (36), in the direction of the slide receptacle (21).
