Abstract (en)

[origin: WO2020025498A1] The invention relates to an item of packaging that comprises a film (1) with a partial cut line (5) forming a flap (6) that conceals an opening (7), said film being provided with a label (11) that is joined on said flap (6) and having a gripping area (12) which allows lifting thereof, pulling the flap (6) with it by breaking the cut line (5), said cut line (5) forming a projection (13) in the opening (7) to indicate, via a reading area (12b) of the label (11), the first-time opening of the packaging, said projection (13) having a support (13a) that is connected to the edge (8) by a bridge section (13b) with smaller dimensions such that, once the cut line (5) is broken, the support (13a) is in a lowered position in the opening (7), the reading zone (12b) having a positive opening inscription (14) concealed by the support (13a) prior to the first-time opening and visible through the reading zone (12b) when the support (13a) is in the lowered position.
