Abstract (en)
[origin: EP3831218A1] A flavorant-containing sheet manufacturing apparatus includes: a feeding mechanism configured to feed a gelled flavorant-containing sheet; a slit-forming portion configured to form one or more slits having a depth corresponding to an entirety or part of a thickness of the flavorant-containing sheet along a feed direction of the flavorant-containing sheet; and a drying mechanism configured to dry the flavorant-containing sheet in which the slits are formed.
