Abstract (en)

[origin: WO2020030744A1] The invention relates to a computer program product and to an application software for mobile terminals, comprising commands which, when executed by a computer, cause the computer to generate a character string for a glass identifier and/or to retrieve a character string for a glass identifier and/or to provide the glass identifier with a character string. The invention further relates to corresponding, particularly computer-implemented, methods.
