Abstract (en)

[origin: WO2020035187A1] The invention relates to a method for dyeing keratinous material, in particular human hair, comprising the following steps: applying an agent (a) to the keratinous material, said agent (a) containing at least one organosilicon compound and at least one surfactant, and applying an agent (b) to the keratinous material, said agent (b) containing at least one pigment. The invention also relates to a multi-component packaging unit which contains the agents (a) and (b) in three separately fabricated containers.
