Abstract (en)

[origin: WO2020035100A1] Closure device suitable for a 3D printing device and/or coater device, comprising a closure means (500), wherein the closure means is activatable and can be opened by activating means, wherein the activating means is an eccentric, a draw key and/or a slotted link (501). The invention also relates to a method and a device for producing 3D mouldings, wherein such a closure device is used.
