Abstract (en)

[origin: WO2020036541A1] Subject of the invention is hidden window hinge for caravans and/or motorhomes. Hidden window hinge, beside that it is not visible on the product from outer side, also enables full functioning, that means closing and opening of the window. At the same time this execution of the hinge enables production of the window with completely flat outer surface, without visible hinge. Hidden hinge for caravans and/or motorhomes is comprised of fixed part (2) and in it sliding movable part (3), where fixed part (2) of the hinge is attached to part (1b) of carrier (1); on movable part (3) of the hinge inner pane (4) is attached and inner pane (4) is bonded with outer pane (5) over a step (4a). Part (1b) of the carrier (1) is moved towards inside of the carrier (1) and the step (4a) is done in dimension that outer pane (5), that is bonded with inner pane (4), lies leveled with part (1a) or the carrier (1).
