Abstract (en)  
A brazier (1) for stoves powered by solid fuel, comprising a container (10) configured to contain the fuel, provided with a bottom portion (28) that is substantially concave and affected with a distribution of through holes (32). The brazier (1) also comprises a support (11) configured to house said container (10); the container (10) and the support (11) both consisting of respective portions made of metal sheet (12, 13, 28, 29, 30), suitably cut and/or bent, or stamped and mutually connected in a permanent manner by welding.
