Abstract (en)
[origin: WO2020039138A1] The present invention relates to bituminous compositions comprising molecules of formula (I). The invention also relates to the use of these bitumen compositions in the fields of road applications, particularly in the production of road binders and roadways in general, as well as in the fields of industrial applications. The invention also relates to a method for preparing these bituminous compositions. The invention further relates to novel molecules of formula (I), which can be used in particular in the formulation of bituminous compositions.
