Abstract (en)

[origin: JP2021098008A] To provide a new portable multi-functional hair styling device which is used in especially practical, easy, reliable and safe manners.SOLUTION: In a portable hair styling device (1), an attachment (6) which is connected to a handle (2) and includes first and second outlets (12, 13) that are different from each other comprises: lock means which is rotatably attached to the handle so as to move between the first configuration in which the air flow is blown out by the first air outlet (12) and the second configuration in which the air flow is blown out by the second air outlet (13), and locks the attachment (6) in at least one of the first and second configurations in order to prevent the separation of the attachment (6) from the first or second configuration where the attachment (6) is placed; and a control member (21) which allows a user to control locking and/or unlocking of the attachment (6).SELECTED DRAWING: Figure 1
