Abstract (en)

[origin: WO2020043485A2] The invention relates to an assembly (1) for irradiating a surface (2), comprising: - at least one radiation source (3) which is designed to emit ultraviolet radiation, - at least one reflector (4) for directional emission of the ultraviolet radiation onto the surface, wherein a control device (9) is provided, by which a dose of the ultraviolet radiation, which is required and/or already administered for sterilizing a surface (2), can be set and/or determined.
