Abstract (en)
[origin: WO2020049476A1] A product packaging machine (1) with extendible film is provided with a distributing unit (9) arranged for dispensing a portion of said continuous extendible film and a rear gripper unit (8) arranged for cooperating with said distributing unit (9) to spread said portion of said extendible film along an operating direction (B) in a wrapping zone (3) inside the packaging machine (1) and further comprises two side gripper units (11, 12) that are movable towards and away from one another along a direction (FI) that is transverse to Operating direction (B) to grasp the extendible film laterally and arrange the extendible film below a product (10) to be wrapped, each of said side gripper units (11, 12) comprising a plurality of grippers, each gripper (13) having an upper jaw and a lower jaw, in which at least either said upper jaw or said lower jaw comprises a contact surface (14A, 15 A) arranged for interacting with the extendible film and having a width (D) that is greater than 50 mm measured along the operating direction (B).
