Abstract (en)
[origin: CN113145193A] The invention relates to a method, a computer program and a system for operating a hand-held, computer-controlled piston-stroke pipette as well as a corresponding piston-stroke pipette as well a data processing device cooperating with that, wherein a precise pipetting of liquid with a vapor pressure higher than that of water is rendered possible by means of a sequence of prewettings of the pipette tip.

Abstract (de)
Die Erfindung bezieht sich auf ein Verfahren, ein Computerprogramm und ein System zum Betreiben einer handgehaltenen, computergesteuerten Kolbenhubpipette sowie eine entsprechende Kolbenhubpipette, sowie ein mit dieser zusammenwirkendes Datenverarbeitungsgerät, wobei mittels einer Sequenz von Vorbenetzungen der Pipettenspitze ein präzises Pipettieren von Flüssigkeiten mit höherem Dampfdruck als Wasser ermöglicht wird.
