Abstract (en)

[origin: WO2020064860A1] The present invention concerns a device (2) for transferring products (1), comprising a means (3) for transporting products (1) in a line in a first direction, at least one output conveyor (4) in a direction transverse to the first direction, and a tool (5) for transferring the products (1) in a group, characterised in that the transfer tool (5) has only two degrees of freedom of movement in a horizontal plane, in said first direction and said transverse direction. The invention also relates to a corresponding method for transferring products (1).
