Abstract (en)
[origin: CA3111900A1] A luminaire connection for a luminaire strip composed of at least two series-connected luminaire elements and arranged on or in a ceiling of a room, comprising feed-in contacts (2) for feeding electrical potential from an electrical building supply network into the luminaire strip, comprising two electrical connection contacts (5) such that in each case a busbar (6) is connected to each connection contact (5), said busbar electrically supplying the luminaire element assigned thereto, and comprising at least one receptacle (15) for a mechanical coupling part (15) mounting the luminaire elements against one another.
