Abstract (en)

[origin: EP3858513A1] A buckle manufactured from a single piece of wire having a first U-shaped portion including a first distal leg (12) formed from one end of the piece of wire, a first proximal leg (14) and a first bight (15); a second U-shaped portion including a second distal leg (13) formed from the other end of the piece of wire, a second proximal leg (16) and a second bight (17); an intermediate wire portion (18) connecting the proximal leg of each U-shaped portion; the two proximal legs (14, 16) and intermediate wire portion (18) lying in a first plane of the buckle and having a U-shaped configuration; the two distal legs (12, 13) lying parallel to each other in a second plane of the buckle and parallel to the two proximal legs (14, 16); the bights (15, 17) extending from the first plane to the second plane, wherein flattened tracks (5) are provided on the first and second distal legs (12, 13).
