Abstract (en)
A frame (30) for a shaving head (3), including a first end piece (41), a second end piece (42), and a first blade positioner (32-34), the first and second end pieces being connectable to each other, via a connector (414L/R) of the first end piece and a connector (424L/R) of the second end piece, such that an outer extremity of the first end piece (41) and an outer extremity of the second end piece (42) are arranged away from each other, the first blade positioner (32-34) being located between said outer extremities when the first and second end pieces are connected to each other. A shaving head (3) including such a frame (30) and one or more razor blades arranged in the one or more blade positioners (32-34) thereof. A shaver including such a frame (30) or such a shaving head (3).
