Abstract (en)
[origin: WO2020069781A1] The invention relates to a device for marking, cutting or stamping a dough piece (01), having a positioning unit (02) and a tool (03). The tool (03) has at least one stamp (04), and the stamp (04) can be brought into engagement on the dough piece (01). The dough pieces (01) are arranged in an undefined location on a flat surface (05), the positioning unit (02) can detect at least the location of a dough piece (01), and the tool (03) can be centred at a target position above the dough piece (01).
