Abstract (en)

[origin: WO2020069542A1] The invention relates to a securing device (1) for detachably securing a front panel (2) to a drawer (3), particularly to a drawer side wall (4), having at least two joining elements (5), which can be mounted on the front panel, and at least two locking devices (6, 7) assigned to the drawer for, preferably detachably, locking the at least two joining elements (5), wherein at least one cable (8) is provided, which connects together the at least two locking devices (6, 7) together.
