Abstract (en)

[origin: WO2020070621A1] Time piece comprising: • a first ring (2) displaying a plurality of time zone indications (20); • a second ring (3) displaying 24 time indications (30); • wherein said rings can be rotated relative to each other in such a way that the time in each of said time zones is indicated at any given moment; • a third ring (4) displaying a plurality of time zone indications (40) that can be moved relative to the second ring, the time zone indications thus being distributed over two rings (2, 4), • in which said first, second and third rings (2, 3, 4) are arranged in a concentric manner, the second ring (3) being disposed between the first ring and the third ring in such a way that the time zones are indicated alternately on the first outer ring (2) and on the third inner ring (4).
