Abstract (en)
A gutter bracket (1) for a hidden roof drainage system, and a roof drainage system. The gutter bracket (1) comprises a back portion (2) for attachment the gutter bracket (1) to a building, an intermediate portion (3) extending outward from the back portion (2) for receiving a gutter element (7), and an outer portion (4) extending from the intermediate portion (3). The outer portion (4) comprises an adjustable adjustment member (5) that comprises a flashing attachment means (6) for receiving a flashing element (8). The height/vertical position of the flashing attachment means (6) is arranged to be adjustable in an adjustment range (A) in relation to the intermediate portion (3).
