Abstract (en)

[origin: WO2020074301A1] The invention relates to a domestic appliance (1), having a functional compartment (2), in particular a dishwashing compartment, and having an insulation arrangement (15), which is provided outside the functional compartment (2), in particular the dishwashing compartment, and is intended for the thermal and/or acoustic insulation of the functional compartment (2), in particular the dishwashing compartment, wherein the insulation arrangement (15) has an insulation element (20), and wherein the insulation element (20) is made in one piece from a plastics material which, in a cured and/or cross-linked state, has preferably adhesive properties, and therefore the insulation element (20) adheres to the functional compartment (2), in particular the dishwashing compartment, and can be separated therefrom in a non-destructive manner, by way of a surface (21) which is directed towards the functional compartment (2), in particular the dishwashing compartment.
