Abstract (en)

The invention relates to a pallet (1, 20) for transporting products, consisting of at least two support feet (2) spaced apart from one another and a cover plate (3) arranged thereon. Each support foot (2) is formed from at least two, preferably three carrier element bodies (5), which are preferably square and spaced apart preferably uniformly from one another and which are enclosed together by at least one layer of a first cardboard (4) in an arrangement direction F. The cover plate (3) is formed from a second cardboard (23), to the lower face (7) of which the support feet (2) are fixed.
