Abstract (en)
The disclosure relates to a dry ink comprising macro colourant particles (64) for bonding to a liquid print applied on a surface (2). The macro colourant particles each comprises a particle body (66) and colour pigments (12) attached to the particle body. The particle body is coated with a resin and the coating is adapted to bond the colour pigments to the particle body and to bond the macro colourant particle by the liquid print to the surface.
