Abstract (en)

[origin: WO2020084112A1] The present invention relates to a polymeric composition comprising a polymeric elastomeric phase, polymeric particles and a colorants. In particular the present invention relates to a polymeric composition comprising a polymeric elastomeric phase polymeric particles and a colorants, its process of preparation and use. The present invention concerns also objects or articles comprising a polymeric composition comprising a polymeric elastomeric phase polymeric particles and a colorants. The present invention concerns as well a lightning or luminous device comprising a polymeric composition comprising a polymeric elastomeric phase polymeric particles and a colorants
