Abstract (en)

[origin: WO2020089207A1] The present invention relates to a composition based on yttrium oxide, a cerium-based compound and an organic compound and the use thereof in the field of welding as a stop-off product. The composition comprises, in an aqueous medium: # particles of yttrium oxide; # particles of a cerium-based compound: - which is cerium oxide; or - which is prepared by the method consisting in subjecting a colloidal dispersion D, which is obtained by neutralizing an aqueous solution of cerium nitrate with a basic aqueous solution, to heating; # an organic compound chosen from the group formed by polyvinylpyrrolidone, polyvinyl alcohol, carboxymethyl cellulose and hydroxyethyl cellulose.
