Abstract (en)

[origin: EP3875568A1] Solid self-adhesive formulation for the hygiene and fragrance of sanitary ware comprising inorganic salts, anionic surfactants, non-ionic surfactants of glucosidic derivation, fragrances, which is characterised in that the components contained therein are products of natural origin and in that it has a water content lower than 15% by weight on the weight of the solid self-adhesive formulation. A further object of the present invention are the products containing said solid self-adhesive formulation which are manually applicable due to the presence of a non-adhesive water-soluble film arranged on the surface opposite that which adheres to the wall of the sanitary ware.
