Abstract (en)
[origin: WO2020099939A1] Blended polymer compositions and methods of making the same include an elastomeric EVA composition in an amount ranging from about 46 to 70 wt% of the polymer composition; and a polypropylene in an amount ranging from about 20 to 40 wt% of the polymer composition. Methods include mixing an elastomeric EVA composition with polypropylene, and extruding the mixture of elastomeric EVA composition and polypropylene.
