Abstract (en)  
This pillow was created to help people sleep better, especially in certain cases :• Anti-wrinkle and anti-crease during sleep. • Use of CPAP (Continuous Positive Airway Pressure) system. • Post-surgical recovery or head injuries. • Cervical ergonomics for better head and neck support. • Specific treatments with better absorption of creams at night. • Allows you to sleep upside down. This pillow has a special shape, straight in contact with the mattress and rounded at the top, in contact with the face. It consists of 3 zones: the central one (2,6) to support the skull when facing upwards, and the 2 sides designed in the shape of the letter "C" (1,2,3), to sleep sideways.
