Abstract (en)

[origin: WO2020152408A1] The invention concerns a multilayer structure for producing a floor covering comprising a transparent upper wear layer and a printing complex comprising a reinforcement layer, the printing complex comprising, in succession, an extruded printing layer, the upper face of which, intended to be bonded to the upper wear layer, is printed with a decoration, the reinforcement layer bonded to the lower face of the extruded printing layer and a backing layer, the upper face of which is bonded to the reinforcement layer.
