Abstract (en)  
[origin: WO2020107054A1] An adhesive closure for holding a wrap in a closed position, the adhesive closure comprising: a first area having adhesive characteristics configured to adhere the first area of the closure to the wrap; a second area having adhesive characteristics configured to adhere the second area of the closure to the wrap; and, a middle area disposed between the first area and the second area, wherein in use, when the wrap is in the closed position, adherence of the middle area to the wrap is prevented/limited.
