Abstract (en)

[origin: WO2020109042A1] The invention relates to a method for treating an abrasive article (10), wherein a release agent dispersion is applied onto at least one surface (28), which is provided for abrading, of the abrasive article (10) in order to produce a cover layer (30), wherein the release agent dispersion comprises at least one anti-adhesion agent. According to the invention, the release agent dispersion further comprises at least one film-forming agent. The invention further relates to a correspondingly produced abrasive article (10).
