Abstract (en)

[origin: WO2020109141A1] The present invention relates to a compressed water ejection device (10) for the barrel of a weapon, wherein the compressed water ejection device (10) comprises a water cylinder (20), a working cylinder (30) and a braking region (40), wherein a first piston rod (50) connects a water piston (60) in the water cylinder (20) and a ram (70) in the working cylinder (30), wherein a second piston rod (80) connects a first braking piston (90) in the working cylinder (30) and a second braking piston (100) in the braking region (40), characterized in that the first piston rod (50) has a blind hole for receiving the first braking piston (90).
