Abstract (en)

[origin: EP3889527A1] A built-in assembly comprises a refrigerator or freezer configured for installation in a piece of kitchen furniture (A) having a front panel hinged to a cabinet structure. The front panel is arranged at the refrigerating appliance door (12) and linked thereto by means of at least one sliding and connecting device which comprises a rail (20) and a cursor (18), wherein at least one of the rail and cursor is fully interposed between the front panel and the refrigerating appliance door so that it is hidden from view in its installed configuration.
