Abstract (en)

[origin: WO2020115264A1] The watersports system comprises a floating, non-motorized watersports assembly (12) provided with an interface (30) for removable sealed assembly to a marine engine. The first floating watersports assembly includes an assembly interface (39) for assembly with a second floating watersports assembly. The watersports system comprises a second floating watersports assembly (14), comprising an assembly interface (37) for assembly with the first floating watersports assembly. Assembling the first floating watersports assembly and the second floating watersports assembly forms a second, floating craft (1) that can be sailed, propelled by an engine (2).
