Abstract (en)
[origin: WO2020115629A1] The present system comprises a toilet bowl (2), a hinged seat (3) with a sealing closure, and a controllable trap with a sealing closure (22) which is arranged at an evacuation outlet (21) of a receptacle (20) of the bowl. According to the invention, the system comprises an electric air compressor (5) and an electric water pump (4), which supply a compressed air circuit (26, 26a) and a pressurised water cleaning circuit (25, 25a) respectively, and each of these comprises a plurality of nozzles (26, 25) distributed in the receptacle.
