Abstract (en)

[origin: WO2020122735A1] The present invention relates to a shipwreck salvaging floating service base 40 with a service base hull, a moon pool 49, and a portal crane 42. A winch assembly includes at least four sway compensating and hoisting individual winches, each with a winch cable 5 aligned and extending down from a top portion of the portal crane 42. An active extendable sway compensating termination head 6 is secured to each of the winch cables 5 and each active extendable sway compensating termination head 6 is adapted to be connected to attachment elements 7 secured to a shipwreck 1. Furthermore, the present invention relates to a method of salvaging a shipwreck 1 with the floating service base.
