Abstract (en)

[origin: WO2020120886A1] The present invention relates to the use of a gel formulation comprising an oil of renewable origin and a gel-forming agent for coating a granular material, wherein said gel formulation comprises at least: - an oil of renewable origin, and - a gel-forming agent which forms a gel at temperatures below 50 °C with the oil of renewable origin. The present invention also relates to the granular material coated with said gel formulation.
