Abstract (en)  
Micro-perforated channel (100, 101) for air distribution having a plurality of tube pieces (10) stably connected to each other, a plurality of holes (11) and an antibacterial inner coating, said micro-perforated channel (100, 101) further having a density of the plurality of holes (11) between 5% and 10% of the entire surface of the channel (100, 101) micro-perforated so as to allow the generation of turbulent motions inside the channel (100, 101) and at the same time keeping intact the characteristics of the antibacterial coating to prevent the rooting of impurities and bacteria.
