Abstract (en)
[origin: WO2020127729A1] The invention relates to a seasoning mixture that can be obtained by: a) providing living fungal cells of a species of the subphylum Ustilaginomycotina or a species of the phylum Ascomycota in a fermentation medium; (b) adding a secondary feed flow as a substrate into the fermentation medium; (c) producing a fermented substrate by incubating the mixture obtained in step (b); (d) extracting the seasoning mixture by separating the fungal cells from the fermented substrate obtained in step (c); and (e) optionally drying the seasoning mixture from step (d).
