Abstract (en)

[origin: WO2020127119A1] The invention relates to a packaging press (20) for packaging deformable material, having: a first press box (24), a second press box (31), and a compressor (23) which is arranged between the first and the second press box (24, 31) in such a manner that said compressor engages in the first press box (24) on actuation in a first direction and engages in the second press box (31) on actuation in a second direction.
