Abstract (en)

[origin: WO2020127997A1] Described is a filling station for filling liquids for a polyurethane (PU) foam composition into a spray can whereby at least one filling head (3) of the filling station is provided with an unscrewable outer head (2) having a removable nozzle (1) therein. Further described is a method for the filling, by means of the filling station, of at least one liquid for a polyurethane (PU) foam composition into a spray can whereby at least one liquid filling is introduced into the spray can through the filling head (3) provided with the unscrewable outer head (2) with removable nozzle (1).
