Abstract (en)

[origin: WO2020126433A1] The invention relates to a textile heat-, fire- and/or smoke-proof material, comprising a flat, textile substrate which is coated with a polymer composition, the polymer composition containing a cross-linked silicone resin and metal pigments. The invention also relates to a method for producing a textile heat-, fire- and/or smoke-proof material, and to the use of a textile structure as heat protectors in vehicles and as fire and heat protection in buildings.
