Abstract (en)
[origin: WO2020127715A1] The invention relates to a pump system for an atomizer nozzle system having at least two atomizer nozzles, in particular for an electrohydrodynamic atomizer, and to a method for operating an electrohydrodynamic atomizer, wherein the pump system comprises at least one hose assembly, and at least one pump rotor (7) and at least one rolling body (6) for forming a rolling region of a peristaltic pump, wherein the hose assembly comprises at least the same number of hose channels as the number of atomizer nozzles and each hose channel is associated with an atomizer nozzle and connects it to the rolling region.
