Abstract (en)

[origin: EP3900555A1] The present invention provides an electronic device (30) that generates an aerosol for aspiration, wherein the electronic device (30) comprises an aerosol generation unit (32, 33) that generates an aerosol, a control unit (317a) that controls generation of the aerosol by the aerosol generation unit (32, 33), a storage unit (314) that stores a function ID for identifying the function of the electronic device (30), and a transmission unit (317e) that transmits the function ID to an information processing device (10, 20).
