Abstract (en)
[origin: EP3900879A1] A tool (50) for use in mounting a vapour barrier collar (10), comprising a head element (51) comprising insertion means (52) for introducing mounting means (12) of said vapour barrier collar (10) into a groove (21) adapted to receive said mounting means, and operating means (54) for operating the tool. The insertion means (52) comprise a roller wheel set (53) at a front end (55). Two roller wheels (53a, 53b) are provided with a width and a diameter and arranged so that a rotation of the roller wheels (53a, 53b) in the longitudinal direction of the tool (50) is admitted so that the mounting means (12) are arranged in the groove (21) by rolling the roller wheels (53a, 53b).
