Abstract (en)
[origin: WO2020136229A1] The invention relates to a portable hair-styling device (1) comprising a built-in blower module (5) for generating an airflow, and a hand-held handle (2) at one end of which there is a blowing head (6), the blowing head (6) having at least a first air outlet and a second air outlet (8), the first and second air outlets (8) being separate and having openings with different geometries, and the blowing head (6) being rotatably mounted relative to the handle (2) between at least a first position in which the airflow is blown by the blowing head (6) through the first air outlet and a second position in which the airflow is blown by the blowing head (6) through the second air outlet (8).
